

A small body of Political malcontents met in Washington this week to organize a new party, in opposition to the present administration, and in favor of Blaine, of Maine, but it was such a failing failure, that the participants retired in disgust with themselves and everybody else. Old Stirling Bull Morton was not of the number, as he still has hopes of his miserable party, but in a long letter of a recent date, he is anything but complimentary to our illustrious *de facto* President, although he admits that "he does not believe that President Hayes intends to desert or destroy the Republican party, and attempt to erect a new one on its ruins." Morton is too sharp, to want to cross swords with Hayes, as he is aware that such a proceeding on his part would result in his complete annihilation.

A young woman at North Troy, Vermont, became incensed at the Editor of a local paper on account of some slanderous remarks that had appeared in his paper concerning her. She did not sit down and cry and send her big brother after the Editor, but procuring some red pepper and a heavy cowhide, proceeded to his office and after filling his eyes with the pepper, administered a severe flagellation. That Editor will mind how he dots his T's and crosses his T's hereafter, especially when writing about the gender sex.

CAPT. FRENCH TIFTON, late of the Courier-Journal staff, has been commissioned by that paper and other leading Southern journals, as special European war correspondent. He left Louisville last Tuesday, for the seat of conflict, to remain an indefinite time. Mr. W. T. Price, for a long time an associate of the Courier-Journal, has been assigned to the department made vacant by Capt. Tifton's withdrawal, and we may now look for a little spice occasionally in the Kentucky and Southern news columns.

JUDOK RICHARD HAWES, a lawyer and statesman of the oldest time, died at Paris, last Friday, in the 81st year of his age. He filled many offices of honor and trust during his life, having represented his county three times in the Legislature of the State, and the Ashland District in Congress in 1837-41, and in 1862 was elected Provisional Governor of this State. At the time of his death he was County Judge of Bourbon.

News comes from the dear old mother of States and statesmen, Virginia, that at the recent election of town and county officers, the Conservatives, a synonym for Democrats, carried their tickets by an overwhelming majority. There is life in the old land yet.

COT. C. E. BOWMAN having declined the Democratic nomination for the Legislature in Boyle, we understand that it is the policy of the party not to take any action towards naming a candidate for the present.

Several prisoners confined in the jail at Lexington succeeded in getting out after knocking the jailer down, but their liberty was of short duration as the citizens gave chase and captured them after a sharp run. One of them, a negro, was shot and pretty badly wounded before he could be secured.

A young married couple named Steinbacher, who lived in New York, had a slight family jar, such as is likely to occur in the best regulated family. The wife thinking in punish her husband "cut off her nose in spite of her face" by drinking a cup of cold poison and expiring in his presence almost immediately. Then he was stricken with remorse and to end his sufferings fired a bullet through his skull, falling a corpse across the dead body of his wife. "United in life, and in death they were not divided!"—the silly fools.

There is plenty of news here, if we would write it. But we don't like to write about ourselves. There is not a particle of egoism in us.

Why is the INTERIOR JOURNAL like "Brady's Bitter?" That's easy. Because "every body takes it." (N. B.—We ought to charge Brady something for this.)

James Adams came near meeting with a fatal accident one day last week. He was driving a wagon loaded with tankard drawn by a pair of mules, and was descending the hill just back of town, when suddenly the team became frightened and started at full speed. Adams endeavored to retain his seat and to check the mules, but a sudden turn threw him off, his head striking a rock and receiving a considerable contusion. His arm, also, was slightly injured. Luckily, he escaped without serious damage, though the risk he ran was great. Neither the team nor wagon was badly hurt.

KIRKSVILLE.

May 29th, 1877. Cool, dry weather prevails at present. Kirksville has a daily mail now.

The wet, cool weather of a fortnight ago, injured the germ of a great deal of corn that was planted, making a large amount of replanting necessary. The present prospect is not flattering for that cereal.

Wheat, rye, oats and meadows, are looking well, and pasture are excellent.

When this is done, the line will be complete from Lancaster to Richmond, which will reduce the distance between those points about four miles. The gap to be supplied is only about two miles. The money is about all subscribed, and the right of way secured, with but one exception. This will be an important road to the citizens of the Eastern end of Garrard and Kirksville.

GARRARD COUNTY NEWS.

Lancaster, MAY 31, 1877. The scholastic year draws to a close. Examinations will constitute the next series of entertainments, and many are the anxious hearts looking thereunto. We have received invitations to Mrs. S. F. H. Tarant's Commencement Exercises, at Crab Orchard, on the evening of the first of June. Mrs. Tarant is, by-the-way, never lacking in courtesies of this kind.

The regular annual examination of Franklin Institute will begin on Monday, the 4th inst., and continue till Thursday, with both day and night sessions. In the afternoon of Thursday, an ice-cream feast will be given to the Intermediate and Primary classes. At night, after the exercises at the Church, the Principal of the School will give a Lawn Party to the Collegiate Department, on the Institute grounds. The young ladies composing this department will form the Committee of Invitation.

The threatened luxury is at last about to be crushed—after a village newspaper, Mr. A. B. Elkin is at work upon the first issue of the Alpha, a paper destined to begin with modest pretensions, but which the youthful editor facetiously says he hopes will not have to be dashed through every man, any how. We hope our citizens will encourage the enterprise as an advertising medium, as well as the harbinger of news.

On Saturday last, a small Blue of Lancaster northies played a match game of base ball against the College Nine of Danville. Not much game, either, for our boys were indeed boys, while their opponents were men of muscle and experience. The issue may be foreseen—total eclipse and defeat. It is useless to reiterate the facts that the pitcher, catcher and short stop failed to put in an appearance, thereby annihilating the whole affair. Suffice it that a return game will be played on Friday afternoon, at Mr. Dan Anderson's field, near this place, and some excitement is anticipated. It is something new under the sun for Lancaster to be whipped at base ball.

The Lancaster Cornet Band are practicing every night in order to be in readiness for the Strawberry Feast to be given for their benefit on Thursday evening at the Hall.

On Friday next the Julipians will hold their annual meeting at the residence of the Hon. Wm. Berkeley, of Bryantville. Extensive preparations have been made towards a generous dispensing of the hospitalities due upon the festive occasion.

We learn there was a negro named Thos. Dunn killed near Bryantville a few days ago. Particulars not forthcoming. Our neighboring town of Richmond has its tragedy, also. The Sheriff shot and killed a man for resisting his authority.

We are much awed, or unlawed, people that no week's report of us can go without recording a conveying of the flu. Monday was County Court day, dull in the business line, deficient in comedies, tragedies and quadrupeds. The Court of Claims was in session. The County levy has been fixed at 36 cents on every hundred dollars' worth of property. The State tax is included in this sum. A special term of the Common Pleas Court is now in session, and will probably continue through the remainder of the week.

The friends of Dr. Armstrong, of Bryantville, have selected him to become a candidate for the Legislature, subject to the will of the Democratic party.
